## Desperate Housewives

---

So glad that Desperate Housewives is back again. Absolutely love this program. One minute I am having a giggle, the next I have to wipe away tears and the other time you are in suspense.

Can't choose either who my favourite character is, as I all like them.

Anyone watches it?

New season 5 started on E4. Edie has a new husband, and I think that it is Zach, coming back to take revenge.
